If you are in a Life Group, take some time to answer these questions before your group meets:

## **EPHESIANS 5:21-24**

Looking ahead to Ephesians 5:22-33, are there particular verses or topics that make you excited, nervous, confused, or angry?

Why do you think God finds it best for Himself within the Trinity and for marriage to have distinct roles despite persons of equal worth? Why not have "true" equality of worth and role?

If the church were to adopt our culture's ideas about marriage, what is really at stake? What would really be gained or lost?

Based on the developments of the last 50 years, how do you imagine the next generation in America will think of marriage, masculinity, and femininity in the year 2050?

Who is the best example of headship you have ever personally known (excluding your spouse if applicable)? How did they demonstrate that role?

Who is the best example of submission you have ever personally known (excluding your spouse if applicable)? How did they demonstrate that role?
