EPHESIANS HIS GLORY, OUR RICHES

SLAVES & MASTERS. PART II

Ephesians 6:5-9 | Pastor Ben Orchard March 12, 2017

If you are in a Life Group, take some time to answer these questions before your group meets:

EPHESIANS 6:5-9

In which relationships are you most able to apply Paul's instruction to slaves? What is one principle Ben mentioned you found most helpful or challenging for those relationships?

How do you recover your side of a toxic relationship with a superior, especially if that superior doesn't change?

When and how should you stick up for yourself with a superior?

When verse 9 says, "masters, do the same things to [the slaves]," what do you think that is in reference to? Have you seen a particularly good or bad example of this being lived out?

In which relationships are you most able to apply Paul's instruction to masters? What is one principle Ben mentioned you found most helpful or challenging for those relationships?

Where have you experienced partiality? How has that affected those relationships? Where are you most tempted to be partial? How should verse 9 affect those relationships?
